Aniket Lasulkar

Full Stack Developer Intern

lasulkaraniket@gmail.com | +91 9284460236 | Nashik, Maharashtra, India | linkedin.com/in/aniket-lasulkar-876345323

Summary

Computer Engineering student with practical experience in Full Stack Web Development using the MERN Stack. Completed an internship developing a real-world food ordering web application with secure authentication, REST APIs, and MongoDB integration. Strong understanding of frontend and backend development, database management, and responsive web design. Passionate about building scalable applications and continuously learning modern technologies

Skills

HTML5, CSS3, React.js, Node.js, Express.js, MongoDB, Git, GitHub, VS Code, Postman, MongoDB Compass

Work Experience

Full Stack Developer Intern
Seema Technology | Nashik

- Developed a complete web-based food ordering application using the MERN Stack
- Built responsive user interfaces using React.js and Bootstrap
- Developed RESTful APIs using Node.js and Express.js
- Connected MongoDB database using Mongoose
- Implemented secure user authentication using bcrypt password hashing
- Performed CRUD operations and backend debugging
- Collaborated on application testing and feature implementation

Education

Bachelor of Engineering in Computer Engineering
PVG's College of Engineering & S.S.D. Institute of Management, Nashik

Certifications and Training

Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems

Project Experience

GoFood – Online Food Ordering System

Technologies: React.js, Node.js, Express.js, MongoDB, Bootstrap, JavaScript, bcrypt. Designed and developed a responsive food ordering platform. Implemented user registration and secure login functionality. Built shopping cart and order placement features. Developed REST APIs for frontend-backend communication. Integrated MongoDB for storing user and order data. Used bcrypt for secure password encryption.
